PROFILE

Results-driven Full Stack MERN Developer with over 2.8 years of experience in building scalable web applications and designing user-centric solutions. Proficient in modern JavaScript frameworks, database management, and cloud-based tools. Strong analytical thinker and collaborative team player with a passion for innovative problem-solving.

SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Redux, Zustand, Bootstrap, DaisyUI, shadcn, NextUI, ChakraUI, Pusher.
Backend: Node.js, Express.js, RESTful APIs, Strapi (CMS), Redis, Socket.io, FastAPI, Python.
Database: MongoDB, Mongoose (ODM), Prisma (ORM), Postgres, Drizzle.
Authentication: NextAuth, Clerk, JWT, Firebase, Supabase.
DevOps & Monitoring: Git, GitHub, Docker, Grafana, Prometheus, Render, Google Cloud (basic), Vercel.

EXPERIENCE

Full Stack Developer (Freelance) · Havenap · Jul 2026 - Present

havenap.com

- Built a full-stack e-commerce product, handling both frontend and backend development end to end.
- Implemented payment integration and the complete checkout and order flow.
- Focused on performance optimization to keep pages fast and responsive.

Full Stack Developer (Contract) · Wove · May 2026 - Jul 2026

- Built full-stack product flows for Wove's relationship intelligence app, including contacts, Gmail sync status, dashboard recommendations, and contact detail pages.
- Integrated frontend screens with NestJS APIs for CRIS relationship scores, CRIL contact memory, follow-up context, and email timelines.
- Contributed lightly to the Python pipeline side that processes Gmail data into relationship scores, recommendations, and warm-intro intelligence.

Frontend Developer (Contract) · Socially · Jun 2025 - Aug 2025

- Worked on Next.js for the client-side landing page and React.js (React Query, Axios) for the core functional app; focused on performance optimization.
- Built complex calendar and posting features, improving interactivity and user experience.

EDUCATION

Secondary School
Sushma Godawari College, +2 Science, Itahari, Sunsari

Bachelor of Technology
Sushma Godawari College, Bachelor of Science in Computer Science and Information Technology (BSc. CSIT), Itahari, Sunsari

PROJECTS

JobBoard (AI-powered job platform) - live demo | source code
Technologies: Next.js, Supabase (Postgres, Storage, Auth), Zustand, Zod, Redis (Upstash), Pusher
Description: AI-powered job platform where users can search jobs, send AI-assisted cover letters, follow each other, and use a social feed with real-time messaging. Recruiters can create jobs fully with AI assistance.

Shortly App (URL shortener) - source code
Technologies: React, Bun, Express, PostgreSQL, Redis, TypeScript, Docker
Description: Production-minded URL shortener where users can create clean short links, reuse duplicate URLs, and redirect quickly through a Redis-cached backend with monitoring and load testing.

Ghumfir App - source code
Technologies: React, Node.js, MongoDB, TypeScript
Description: Intuitive travel planning platform where users can organize trips, manage itineraries, and plan activities before traveling.
