Other: Git, Github, Open Source contribution, Firebase, supabase, Docker

EDUCATION

SECONDARY SCHOOL

Sushma Godawari College
+2 Science
Itahari, Sunsari

BACHELOR OF TECHNOLOGY

Sushma Godawari College
Bachelor of Science in Computer Science and Information Technology (BSc. CSIT)
Itahari, Sunsari

PROFILE

Results-driven Full Stack MERN Developer with over 2 years of experience in building scalable web applications and designing user-centric solutions. Proficient in modern JavaScript frameworks, database management, and cloud-based tools. Strong analytical thinker and collaborative team player with a passion for innovative problem-solving.

Experience

Contract Developer--Socially(2months): [Social Media Management Platform]

- worked on Nextjs for the client-side landing page and React js (React query, Axios) for the core functional app; focused on performance optimization.
- Built complex calendar and posting features, improving interactivity and user experience.

Backend Intern--Maanche(1months):

- Used Express.js, postman, and REST APIs for backend authentication and integration tasks.
- Assisted in developing secure authentication workflows and API endpoints for internal systems.

Freelance Developer--School Website Project:

- Built an admin dashboard using Strapi for content management.
- Developed a responsive landing page showcasing upcoming events and school updates.

PROJECTS

Ghumfir App:

- Technologies: React, Node.js, MongoDB, TypeScript
- Built an intuitive travel planning platform where user can able to plan before travel.

JobNest (Ai powered job platform):

- Technologies: Nextjs, supabase(postgresdb, objectstorage, auth), zustand, zod, redis(upstash), pusher etc.
- This is ai powered job platform where user can search job send cover letter with the help of ai. Recuriter can able to create job full from Ai.

Club App:

- Tech: Nextjs, NextAuth, Shadcn UI
- Created Advance authentication pattern and flow and learn about the the how the authentication works in large apps like X with enable posting features.

Live Docs:

- Tech: Supabase (postgres), Express js, vite react, quill js, socket.io
- This is a live collaborative documents web based App.
